## STEP 1 : CLEANSING

### activator Pre-treatment Gel

Rinse the face with water. Apply the product gently and massage for 1-2 minutes. Remove with a soft damp cloth or rinse gently with water. Your skin is ready for the treatment. Non greasy. Alcohol-free. Avoid in sensitive, reactive skin and eye contour.

## STEP 2 : PROTECTION

### protective petroleum jelly

Apply protective petroleum jelly around sensitive areas - periocular area, lips, nasal mucosa.

## STEP 3 : NANOROLLER

### nanoroller

Gently apply the nanoroller all over the treatment area with multiple passes, until the treatment area becomes pinkish / reddish. Use pressure if necessary. If irritation occurs, stop the procedure immediately and apply **aloe gel**.

## STEP 4 : NANOAMPOULE

### nanoampoule

Apply the nanoampoule & leave it for 2 - 3 minutes. Apply a second coat on the focused area if needed.

If irritation occurs, rinse off immediately with plenty of cold water.

**Note:** Physicians using their knowledge may select **nanoampoule** depending on skin condition.

## STEP 6 : REPEAT STEPS 3 & 4

### repeat

Repeat step 3 & 4, 2 to 3 times

**Note:** Do not neutralize.

## STEP 7 : NANOCREAM

### nanocream

Apply gently a thick layer of **nanocream** on the treatment area.

**Personal Care (prescription)** : Physician may prescribe **Leaderma** personal care products for continuing the treatments at home.
