

Ferulic nano-peel is one of the most powerful & highly effective as a topical antioxidant. It is specially formulated for people with sunspots and aged skin. It rejuvenates the skin in a few treatments, making it look younger & spot free.

What is Ferulic peel?

The ferulic nano-peel system stimulates cell replacement, improves texture, and boosts skin hydration by helping it prevent water loss. The ferulic peel system can be used year-long for all skin types and skin tones.

Is ferulic peel good for your skin?

Ferulic acid is an antioxidant that works to boost the effects of other antioxidants. When used in skincare products, it helps to protect overall skin integrity by reducing the development of fine lines, spots, and wrinkles.

Can i mix ferulic acid with retinol?

Together, Ferulic Acid and Retinol are an incredible combination,”. An antioxidant is a beauty buzzword that shows no sign of slowing down, and for good reason, so, adding an antioxidant retinol yellow peel is safe and effective.

How do you use the Ferulic peel?

Apply a coat of Ferulic pure peel and massage to enable the penetration of the active ingredients until the solution is completely absorbed. You will see a light white mask appear. Next, apply 2 of retinol yellow peel 4% mild coat and massage till absorption
