

GROWTH FACTOR MESO COCKTAIL

A growth factor meso cocktail is helpful in generating new cells. It can be used on the skin as well as on the scalp. It is used topically with a nano roller for maximum penetration.

What does growth factor do to your skin?

Growth factors are natural substances made by skin cells to maintain healthy skin. They are responsible for supporting the repair of damaged skin, making components that provide firmness and elasticity to the skin while helping to maintain skin's protective functions.

Are growth factors safe in skincare?

Growth factors encourage cellular regeneration and proliferation. ... In other words, we have plenty of studies that prove growth factors boost collagen, reduce the appearance of wrinkles and keep your skin young but very few proving their safety (or lack of it).

growth factor Meso Cocktail

5 ml / 0,17 Fl. Oz x 10 ampoule

Phototypes I-VI

Indication

Regenerating Effect

STEP 1 : CLEANSING

activator Pre-treatment Gel

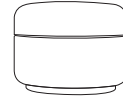

Rinse the face with water. Apply the product gently and massage for 1-2 minutes. Remove with a soft damp cloth or rinse gently with water. Your skin is ready for the treatment.

STEP 2 : PROTECTION

protective petroleum jelly

Apply protective petroleum jelly around sensitive areas - periocular area, lips, nasal mucosa.

STEP 3 : NANOROLLER

nanoroller

Gently apply the nanoroller all over the treatment area with multiple passes, until the treatment area becomes pinkish / reddish. Use pressure if necessary. If irritation occurs, stop the procedure immediately and apply **aloe gel**.

STEP 4 : NANOAMPOULE

nanoampoule

Apply the single dose of **Silica (ampoule)** solution and gently massage till penetration.

STEP 5 : NANOMESO

nanomeso

Apply the nanomeso using nanoroller on the treatment zone to puncture the skin, apply little pressure if needed. Apply a second coat on the focused area. Leave it until dried or wash or naturalized, if needed. If irritation occurs, rinse off immediately with plenty of cold water.

STEP 6 : REPEAT STEPS 3 & 5

repeat

Repeat step 3 & 5, 2 to 3 times
Note: Do not neutralize.

STEP 7 : NANOSERUM

nanoserum

Apply gently a thin layer of **skin DNA repair nanoserum** using your fingertips. Massage till total absorption.

Personal Care (prescription): The physician may prescribe **Leaderma** personal care products for continuing the treatments at home.
