

HAIR RE-GROWTH MESO COCKTAIL

Hair re-growth meso cocktail helps in hair re-growth in a few treatments. It is used topically on the scalp with a nano roller for maximum penetration.

What is hair mesotherapy?

Hair mesotherapy is a method of healing that aims to prevent hair loss in men and women, increases the density of hair formation and provides options to prevent male spillage and opening. It is a process that regulates proteins, vitamins and other nutrients in the scalp.

What is the classification of Hair Loss?

Hair mesotherapy is the technique of injecting rich nutrients in terms of nutrient diversity into the mesoderm layer of hair scalp in hair transplantation. It is made by injecting the solution into the scalp with a special mesotherapy gun containing sterile needles. This treatment-improvement consists of eight intervals in a week not exceeding half an hour. You need to be patient in this period; because visible results begin to appear after the fifth interval. The contents of the injected fluid vary depending on the causes of hair loss.

hair re-growth Meso Cocktail
