

LIFT & FIRING MESO COCKTAIL

Lift & Firming meso cocktail helps to boost the new collagen production and cause lifting and firming effect. It is used topically with a nano roller for maximum penetration.

What is lifting & firming mesotherapy?

Mesotherapy involves injecting small amounts of a combination of vitamins, minerals, and more into the layer of fat and connective tissue under the skin, we use the baby point injection technique with a unique blend of ingredients containing vitamins, amino acids, minerals, and hyaluronic acid. The formula goes deep into rehydrating the skin, leaving you with glowing, radiant skin. With the fast, visible results and lack of recovery time, it's no wonder people are racing to try it.

What are the benefits of lift & firming?

- Reducing fine lines and wrinkles
- Enhancing collagen production
- Increasing moisture levels
- Improving skin elasticity
- Reducing under-eye swelling
- Skin rejuvenation
- Enhancing skin firmness
- Brightening the skin

lift & firming Meso Cocktail

5 ml / 0,17 Fl. Oz x 10 ampoule

Phototypes I-VI

How long does it take?

Mesotherapy takes around 45 minutes to administer and approximately 4-6 sessions are recommended in the beginning, with a top-up at three months.

What are the main advantages of the procedures?

- Comfortable procedure, unlike surgical facial tightening, no surgical intervention is performed, no local anesthesia, small needle insertion points quickly heal and leave no marks in the treated areas.
- Procedure is short, lasts up to 60 min.
- The after-treatment period is short, as is the case with many other injection procedures.
- Long-lasting result, the effect lasts for up to 2 years.
- Great results when combining with other beauty treatments (bio revitalization, hyaluronic acid injections, PRP, laser procedures).
- Meso therapy is safe, made of natural materials that do not normally cause allergies, completely remove from the body within 6-8 months.
- Have no analogs.

Indication

Lifting & Firming Effect
