

# STRETCH MARK & SCARS MESO COCKTAIL

Stretch mark & scars meso cocktail helps to renew the cells that cause new collagen formation resulting in stretch marks and scar reduction. It is used topically with nano roller for maximum penetration.

## Does mesotherapy work for stretch marks?

The use of mesotherapy will optimize hydration to moisturize the skin, stimulate the local microcirculation and provide it with essential micronutrients. The treatment is effective on any type of stretch mark: Old (white) stretch marks diminish by about 50%. Recent (red) stretch marks fade more easily.

## Does Leaderma stretch marks & scars meso cocktail work on old stretch marks?

Stretch marks & scars meso cocktail has been shown to be highly effective in helping to improve the appearance of existing stretch marks. It contains ingredients that help to increase the elasticity of the skin, thereby reducing the possibility of new stretch marks forming.

## stretch mark & scars Meso Cocktail

## STEP 1 : CLEANSING

### activator Pre-treatment Gel

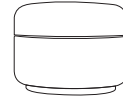

Rinse the face with water. Apply the product gently and massage for 1-2 minutes. Remove with a soft damp cloth or rinse gently with water. Your skin is ready for the treatment.

## STEP 2 : PROTECTION

### protective petroleum jelly

Apply protective petroleum jelly around sensitive areas - periocular area, lips, nasal mucosa.

## STEP 3 : NANOROLLER

### nanoroller

Gently apply the nanoroller all over the treatment area with multiple passes, until the treatment area becomes pinkish / reddish. Use pressure if necessary. If irritation occurs, stop the procedure immediately and apply **aloe gel**.

## STEP 4 : NANOAMPOULE

### nanoampoule

Apply the nanoampoule & leave it for 2 - 3 minutes. Apply a second coat on the focused area if needed. If irritation occurs, rinse off immediately with plenty of cold water.

**Note:** Physicians using their knowledge may select **nanoampoule** depending on the skin condition.

## STEP 5 : NANOMESO

### nanomeso

Apply the nanomeso using nanoroller on the treatment zone to puncture the skin, apply little pressure if needed. Apply a second coat on the focused area. Leave it until dried or wash or naturalized, if needed.

If irritation occurs, rinse off immediately with plenty of cold water.

## STEP 6 : REPEAT STEPS 3 & 5

### repeat

Repeat step 3 & 5, 2 to 3 times

**Note:** Do not neutralize.

## STEP 7 : ANTI CELLULITE LOTION

### anti cellulite lotion

Apply gently a layer of **anti cellulite lotion** on the treatment area.

## STEP 8 : NANOSERUM

### nanoserum

Apply gently a thin layer of **skin DNA repair nanoserum** using your fingertips. Massage till total absorption.
